

21 + 3 XTREME

21 + 3 XTREME IS AN OPTIONAL
SIDE BET FOR BLACKJACK

HOW TO PLAY

- Players must make a standard blackjack bet to make a 21 + 3 bet.
- The 21+3 wager is placed on the designated spot on the table layout before any cards are dealt.
- The 21 + 3 bet considers both the player's initial two cards and the dealer's up card. If they combine to make a Flush, Straight, Three of a Kind, or Straight Flush, the player will win.
- After the dealer has completed the initial deal and re-vealed their up card, they may resolve the 21 + 3 bet immediately.

HAND RANKINGS:

- **FLUSH:** Three cards of the same suit.
- **STRAIGHT:** Three cards in sequence (Ace can be used to achieve an Ace, 2, 3 Straight or Ace, King, Queen Straight).
- **THREE OF A KIND:** Three cards of the same rank.
- **STRAIGHT FLUSH:** Three cards in sequence and the same suit.
