

BUSTER BLACKJACK

Buster Blackjack is an optional side bet for blackjack. Players must make a standard blackjack bet in order to make a Buster Blackjack bet.

The Buster Blackjack side bet allows players to win odds when the dealer busts. The odds-based payouts are determined by the number of cards in the dealer's busted hand. The higher the number of cards in the dealer's busted hand, the higher the payout for the Buster bet.

If the dealer has a blackjack, all Buster Blackjack side wagers lose.

If a player who made the side wager has a blackjack AND the dealer does not have a blackjack the dealer will pay the player's blackjack wager, tucking the player's two cards face up under the player's Buster Blackjack wager to indicate that the side wager remains in action.

If a player who made the side wager busts the dealer will collect the player's blackjack wager and tuck the player's cards face up under the player's Buster Blackjack wager to indicate that the side wager remains in action.

NOTE: If there are Buster Blackjack bonus wagers remaining in action, the dealer must complete his hand, so the outcome of the side wager can be determined. This is done even if all the players have busted and/or received a blackjack.

If the dealer's completed hand does not exceed 21, all Buster Blackjack wagers lose.

If the dealer's completed hand exceeds 21, the dealer will pay all Buster Blackjack wagers based on the number of cards in the dealer's hand (See payable on reverse side for odds).

Dealer Busts With	Pays
8 or more cards	250 to 1
7 cards	50 to 1
6 cards	15 to 1
5 cards	4 to 1
4 cards	2 to 1
3 cards	2 to 1

IN BET

In Bet Blackjack is an optional side bet for blackjack. Players must make a standard blackjack bet in order to make a In Bet Blackjack bet.

The In Bet Blackjack side bet allows a player to win odds if the Dealer's up-card falls between the Player's first two cards according to rank.

Cards rank as follows, [2, 3, 4, 5, 6, 7, 8, 9, T, J, Q, K, A]. A card's suit is not considered when resolving this wager.

The In Bet wager will win in two situations.

The rank of the Dealer's up-card falls between the ranks of the Player's first two cards.

The size of the spread between the ranks of the Player's cards will determine the odds received.

The rank of the Dealer's up-card and the ranks of the Player's first two cards are identical. This is called a "Triple Match".

Card Spread	Pays
1	10 to 1
2	5 to 1
3	3 to 1
> 3	1 to 1
Triple Match	30 to 1
